

# PROGRAM OVERVIEW

## THE POSITIONING

### Industrial Recycling Business Masterclass – Cohort 02

From workshop thinking to industrial execution.

Over the past seven years, ECOLLABO8 has evolved from a small experimental recycling workshop into a mature industrial facility processing more than 5 tons of plastic per day.

The biggest lesson we learned:

Recycling only works when it doesn't need the word "recycling" to sell.

The turning point was not a new machine.

It was a business-first approach:

- Market before machinery
- Demand before production
- Profit before impact

This masterclass is built on that exact framework.

## WHY MOST RECYCLING VENTURES FAIL

### Why 90% of Recycling Ventures Never Scale

- They start with machines, not markets
- They produce products nobody validated, that doesn't answer clients problem
- They rely solely on the "impact" narrative to sell
- They cannot compete with standard materials
- They have no pricing logic or margin clarity

No repeat clients.

No scalability.

No sustainability.

This program reverses that logic.

# WHAT THIS PROGRAM ACTUALLY DOES

## What You Will Build in 6 Weeks

By the end of this program, you will have:

- Clear target market
- Defined hero product
- Competitive pricing strategy
- Margin structure
- Production flow logic and suppliers needed.
- Equipment roadmap and output
- Investor-ready business plan

This is not theory.

## THE STRUCTURE

### Program Structure

*Duration* : 6 Weeks

*Cohort Size* : 18 Participants (Maximum)

Thursday – Recorded strategic lesson

Weekend – Assignment execution

Tuesday – Live strategic review session

This format ensures both flexibility and accountability.

## THE CAPITAL & EXECUTION PATHWAY

### From Strategy to Implementation

Masterclass

→ Market-Validated Business Plan

→ Equipment Selection (via ECOLLABO8 Supply)

→ Onsite Industrial Training

→ Capital Review Pathway via ConduitIMPACT

Within the Conduit Group ecosystem, ConduitIMPACT operates a blended finance vehicle structured to deploy up to \$100 million into scalable impact ventures.

Selected participants with viable, market-validated business plans may become eligible for structured review within this ecosystem.

There is no funding guarantee.

Capital follows structure.  
Structure follows market.

## **INVESTMENT**

### **Investment & Commitment**

Program Fee : \$1,200

Cohort limited to 18 participants.

Applications close once seats are filled.

This program is designed for serious operators ready to execute.

## **WHO THIS IS FOR**

### **This Is For You If:**

- You want to build a profitable recycling factory
- You understand scale requires structure
- You are prepared to execute weekly assignments
- You are serious about capital, margin, and competitiveness

### **This Is Not For:**

- Hobbyists looking for DIY equipment
- Sustainability enthusiasts without business focus
- Individuals looking for guaranteed funding
- Those unwilling to commit time and discipline

# SECURE YOUR SEAT

## Cohort 02 – 18 Seats Only

This is the second cohort of the ECOLLAB08 Industrial Recycling Masterclass.  
Availability is limited as seats are filling quickly.
